What are the next steps?

**Final Feasibility Report (Fall 2015)**
- Response to public comments included
- Final plan identified and restoration proposal sent to Congress

**Congressional Authorization and Appropriation**
- Congress approves construction through a Water Resources Development Act every 2 to 7 years
- Funding occurs separately through federal and state budget processes
- Congressional approval does not guarantee funding for design and construction

**Outreach / Design Refinement / Engineering**
- Combined Corps/WDFW outreach with community and interest groups
- Site-specific survey and data collection to support design refinement
- WDFW work with willing landowners to acquire lands and/or easements based on refined design

**Construction (Phased)**
- Phased funding results in phased construction (1-2 projects constructed per year)
- Final construction schedule based on site readiness
- Construction contracts awarded and managed by the Corps
